It has recently been stated that all solutions of Pepsin—Wines, Essences, Elixirs, etc., soon become inert, and on standing, precipitate,; a sure sign of the destruction of the ferment. By forming into a pill, with an absolutely inert excipient, the finest pure Pepsin itself, we remove all doubt of the active principles having been deteriorated or destroyed by solution, and ensure to the patient the utmost benefit that can be derived from this valuable aid to digestion.	21/3	1/4
